Exercise Truth-Values (A) – 3

In this exercise, you will be provided with the schemata for carrying out the calculations. Make sure that you understand why you proceed in this order. In the next exercises, you will be “on your own.” Check that your results match the results in the Solutions before proceeding.

$$1. \quad \left\{ \left[\underbrace{(T \bullet T)}_{T} \rightarrow F \right] \rightarrow \underbrace{(T \vee F)}_T \right\} \equiv [T \bullet \underbrace{(T \vee F)}_T]$$

$$\left\{ \left[\underbrace{T}_{T} \rightarrow F \right] \rightarrow \underbrace{T}_{T} \right\} \equiv [T \bullet \underbrace{T}_{T}]$$

$$\left\{ \underbrace{\left[F \rightarrow T \right]}_{T} \right\} \equiv \underbrace{T}_{T}$$

$$\underbrace{T}_{T} \equiv \underbrace{T}_{T}$$

$$\boxed{T}$$

$$2. \quad \left(\left(\underbrace{(T \equiv T)}_T \rightarrow \underbrace{(T \equiv F)}_F \right) \bullet \underbrace{(F \rightarrow F)}_T \right) \vee (T \rightarrow \left(\underbrace{(T \bullet T)}_T \equiv F \right))$$

$$\left(\left(\underbrace{T}_{T} \rightarrow \underbrace{F}_{F} \right) \bullet \underbrace{T}_{T} \right) \vee (T \rightarrow \left(\underbrace{T}_{T} \equiv F \right))$$

$$\left(\underbrace{\left(F \bullet T \right)}_{F} \right) \vee \left(T \rightarrow \underbrace{F}_{F} \right)$$

$$\boxed{F}$$

$$3. \quad \left(\left(\underbrace{(T \vee T)}_T \bullet \underbrace{(F \vee F)}_F \right) \rightarrow F \right) \equiv ((T \rightarrow \left(\underbrace{(F \rightarrow F)}_T \rightarrow T \right)) \rightarrow F)$$

$$\left(\left(\underbrace{T}_{T} \bullet \underbrace{F}_{F} \right) \rightarrow F \right) \equiv ((T \rightarrow \left(\underbrace{T}_{T} \rightarrow T \right)) \rightarrow F)$$

$$\left(\underbrace{\left(T \rightarrow F \right)}_{T} \rightarrow F \right) \equiv ((T \rightarrow \underbrace{T}_{T}) \rightarrow F)$$
